#### **Advancing Clinical Practice in Brain Injury & Stroke Rehabilitation**

(Title of education activity)

**January 22, 2022**

### **Requirements for Successful Completion:**

Learning outcome: **The participant will be able to apply evidence-based interventions and treatments for the patient following a brain injury/stroke seen in the post-acute rehabilitation setting in order to improve quality of life as evidenced by the registered nurse stating intent to change practice as reflected on the post-activity evaluation tool.**

Objectives:

1. Apply information about medical complications after a brain injury and/or stroke that influence treatment, prognosis, interdisciplinary team approach, and goal setting for clients that have a brain injury and/or stroke.
2. Implement specific team goals and treatment plans to facilitate recovery after brain injury and/or stroke in the post-acute treatment setting.
3. Relate to the impact of TBI on caregivers and situations of ambiguous loss influencing various patient/family encounters.

To receive contact hours for this nursing continuing professional development activity, the participant must:

- Register to attend the course
- Attend the entire course
- Complete the Evaluation

Once successful completion has been verified, a "Certificate of Successful Completion" will be awarded for 6.5 contact hours.
