Re: Symposium Exhibitor Invitation

Dear Colleagues,

TIRR Memorial Hermann and MD Anderson are excited to announce our 2022 collaborative virtual conference, **Cancer Rehabilitation Symposium 2022: Advancing Clinical Practice in Cancer Rehabilitation**. This symposium will introduce attendees to the most recent developments in the field, with an emphasis on translating this knowledge into clinical practice. The conference will support live-streamed education, interactive discussions, and break out time available to connect with exhibitors. **We invite you partner with us as a Symposium Exhibitor!**

The Symposium will host Keynote experts and leaders in Cancer treatment, research & rehabilitation, all with the goal of improving the lives of those with cancer through rehabilitation. Our last symposium in 2019 hosted nearly 250 attendees in person from all over the United States. In our 2021 virtual conferences, we have seen larger audiences with a farther reach across the world. Our intended audience for the symposium includes Physicians, Nursing, Occupational Therapy, Physical Therapy, Speech Language Pathologists, Psychologists and other Healthcare professionals interested in working with the growing community of individuals with Cancer and Rehabilitation needs.

Please find the attached information. If you would like to become a supporter/exhibitor or would like email communications, reminders, instructions regarding the symposium etc., please contact Heather Mahon at the TIRR Education Academy. We appreciate your consideration for exhibiting and/or supporting this outstanding educational activity. For more information:

- Conference Website: <https://education.memorialhermann.org/profile/web/8038>
- TIRR Education Academy: ContinuingEducationRegistration@memorialhermann.org or 713-797-7432

We look forward to working with you!

Sincerely,

Jack Fu, MD
